

Save money on your gym membership

Slim down the cost!

If you already use a gym, or want to join one but find membership too expensive, this scheme can help.

With special rates, you could save between 10% and 50%. And as your membership's taken from your gross salary, you won't pay employees' National Insurance - saving up to an extra 12%.

So if you'd like more information on discounted gym membership, speak to:
