**Enjoy Benefits**

## With Workplace Nursery only from Enjoy Benefits, you could save thousands on your nursery fees.

Workplace Nursery is a unique employee benefit offering the highest savings possible on your nursery fees. Your employer simply works in partnership with the nursery you choose, so you save on tax and National Insurance payments on ALL your nursery fees – possibly **saving you over £5,000 a year!**

### Look how much you can save

Workplace Nursery costs your employer nothing, but makes a big difference to you. Here's how much you could save, compared with childcare vouchers:

Monthly nursery fees	£1000	£1250	£1800
Annual saving for basic tax payer	£3024	£3780	£5443
Annual saving through Childcare Vouchers	£933	£933	£933

These figures are for a basic rate taxpayer; if you pay tax at the higher rate, you'll save even more.

The current childcare voucher scheme won't be available after April 2018 – but if you currently use them, you can combine them with Workplace Nursery to save even more!

### How does it work?

Workplace Nursery is exempt from tax and National Insurance when there's a proven relationship between all parties. If your employer agrees to you having the benefit at your nursery, we'll set up the partnership. Your employer simply makes an annual contribution to the nursery's running costs, recouped through reduced National Insurance payments – so while it costs your employer nothing, you save thousands.

Employers like Workplace Nursery because it **costs them nothing to set up**, but helps employees meet their childcare costs. That means existing employees are less likely to leave and offers an attractive benefit to new staff.

### What to do next

Speak to your HR department about our Workplace Nursery benefit. They can contact us directly and our friendly client team are more than happy to help.

Get your child colouring to WIN £100\* of Toys R Us vouchers.
